TEAMWORK ENDS HUMAN TRAFFICKING

Earlier this year, a client of Hope Found went missing. We suspected she had been lured away by her "boyfriend," a man that had trafficked her in the past. Our instincts were correct. We knew she was in danger and desperately needed to get away from her abuser. Together, with her family, close friends, local, state, and federal law enforcement, we were able to work together to locate her and bring her home safely. The trafficker was arrested and remains in jail awaiting a trial. Our client feels safe now.
